

## That new, black— "Barefoot" Rubber!

ONE of its most valuable characteristics, for Tire (and Shoe) purposes, is its CLING quality—its tenacious grip on smooth and slippery surfaces.

Through that it gives its maximum Traction with a minimum of Friction.

When you put on the Brakes to stop the Car, or throw in the Clutch to start the Car, the Tires made of this black "BAREFOOT" Rubber instead of grinding against the ground for Traction, CLING to it, as your bare foot would cling to a slippery floor.

That's why we've finally christened it, and trademarked it, as "Barefoot" Rubber.

Get a sliver of it, from any Goodrich Branch or nearest Dealer.

You'll find it stretch almost as much, and return to shape almost as instantly, as a pure Rubber band.

Weigh a Goodrich "Barefoot" Tire of any size against the corresponding size of other makes of Tire, and you'll find it many pounds lighter, though many "Miles" stronger.

Drive it, and you'll find in Goodrich "Barefoot" Tires a liveliness, a quick response to power, a tenacity of traction,—and all this with a Mileage capacity which will surprise and delight you.

WE developed this "Barefoot Rubber" primarily for use in our now famous "Silver-town Cord" Tire which, last year, showed such marvellous ENDURANCE on the Race Track, at over 100 Miles per hour.

But we now make it into Goodrich FABRIC Tires,—Goodrich Inner Tubes,—Goodrich Motor-Cycle Tires,—Goodrich Truck Tires,—Goodrich Bicycle Tires,—Goodrich Rubber Boots, Overshoes, Soles and Heels, as well as into Silver-town Cord Tires.

Because,—in all of these its characteristics of "Cling,—Spring,—Stretch,—Strength,—and Lightness" are first requisites.

Now, compare GOODRICH Fair-List prices with prices you are quoted for same size Tires of other Brands, that have not the wonderful Resilience and Cling-quality of this new black "Barefoot" Rubber, which can be had in no other Tires than those made by—

Giant and Dwarf honeybees  
In some of the east 100,000,000 and on the mainland of Hindustan are to be found the smallest species of honeybees in the world. These dwarf honey collectors are known to entomologists as Apis florea. Their honeycombs are no larger than a child's hand, and the cells are about the size of a small pinhead. This honey is excellent, as is the wax. The little creatures build the comb in the branch of a low tree, and as they have not to provide for winter, they work all the year through, raising broods like tufts of grass.

In the same land there is a species of giant bees. Apis dorsata, as large as a field cricket. These monsters of the bee world build honeycombs that are from six to seven feet in length, four or more in width and weigh from 300 to 400 pounds each.

Blotted Out "Lord Penn."  
The first book of any kind published in Philadelphia was Atkin's Almanack for the year 1680. It was an unpaginated pamphlet of ten leaves, only two copies of which are now known to be in existence. The first copy of the Almanack printed was sent to Colonel Markham, Penn's deputy, who reported to the council that the book had erroneously declared Pennsylvania to have been founded by "Lord Penn." The council disapproved such a high sounding title and directed the author and printer (William Bradford) to "forthwith and effectually blot out ye words 'Lord Penn.'" This had the effect of recalling the whole edition and the abolition of the obnoxious words.

## Social

Riverside Pupils Entertain  
Members of the Parent-Teacher association were guests of the Riverside school at the May festival program given Thursday, May 4, in the school grove. A short business meeting claimed a portion of the time, after which a social hour was spent in one of the rooms, where school work of all the grades was on display. Punch and wafers were served.

Speaking Cast Enjoy Feed  
About nine o'clock Thursday evening, after the regular rehearsal of the senior class play, the speaking cast gathered round a "huge" bonfire on the high school campus and enjoyed a late feed of roasted weiners, sandwiches, pickles and oranges.

The crowd consisted of Helen Bobzien, Doris Caldwell, Anna Calvert, Lorene Courtney, Marjorie Larson, Helen Layton, Helena LeRoy, Vivian Merrill, Louise Pinkerton, Alice Randle, Marjorie Richey, Florence Riddle, Editha Vincent, Marguerite Wible, Wilford Allen, Winfield Gilkey, Raymond Lathrop, Jo Pardee, Bert Presley, Lynn Sabin, and their guests, Mrs. Alva H. Gunnell, director of the class play; Miss Marion White, class advisor; Mr. Lagergren and "Ole" Hansen, Bobbie Bestul, and Claude Smith.

W. C. T. U.  
The W. C. T. U. social meeting was held at the M. E. church parlors Friday afternoon, at three o'clock. A vocal solo was charmingly rendered by Mrs. W. W. Walker. An interesting and instructive talk was given by Mrs. Kierker, a former worker of the Union. In which she told of the early organization and the wonderful work accomplished in all temperance lines. Mrs. M. F. Graham told of the early work in Oregon and the crusade movement, and Mrs. C. W. Courtney spoke of Christian citizenship. Rev. M. T. Wire gave helpful and practical suggestions for the work.

Refreshments were served and a social hour spent.  
Mrs. Dixon Hostess  
One of the most attractively decked luncheon tables of the week was that presided over by Mrs. Louisa Dixon at her home on North Sixth street Tuesday evening, May 2. The dinner was in honor of Mr. and Mrs. J. H. Harmon, of the Christian church, and Mr. and Mrs. Ernest Grimes and Master Ernest Ellis, who have been visiting in this city. Seated around the table were Mr. and Mrs. J. H. Harmon and son, Homer; Mr. and Mrs. Ernest Grimes, Ernest Ellis, Miss Beulah Crockett, Mrs. Crockett, Hiram Harmon, and the hostess.

Eighteenth Birthday  
Miss Marjorie Hammond delightfully entertained on her eighteenth birthday at the party given at the Hammond home Tuesday, May 2. The guests of the evening were the Misses Uda Basler, Louise Pinkerton, Dora Herman, Anna Calvert, Florence Riddle, Esther Gilkey, Helen Fifield, Winifred Fifield, Evelyn South, and the Messrs. Loren Basler, Douglas Pinkerton, Lynn Sabin, Winfield Gilkey, Paul Day, Lester Day, Horace Hair, and Wallace Niles.

The gown of the hostess, green silk with cream lace, was typical of the color scheme of the day.  
The composing of ten-word telegrams, each word of which began with the same letter, formed a portion of the evening diversion. As winners, Wallace Niles and Winifred Fifield, together with Helen Fifield and Douglas Pinkerton, winners in the coral wedding, were granted the honor of starting somerset at the first table. As prize winner in somerset, Lester Day was presented with an engraved booklet with illustrated poems.

As the yellow light from the chandelier cast its golden rays over the daintily arranged tables, the eighteen young people found places at the table to enjoy the delicious four-course luncheon of chicken salad, stuffed olives, nut bread sandwiches, salted peanuts, yellow punch, ice cream, and cake which was tastefully served in colors of yellow and green.

Yellow surprise packages arranged around the yellow flowers caused a great deal of laughter and fun when opened. They were filled with explosive crackers, tissue paper caps, appropriate verses and silver souvenirs in the form of mouth harps and shrill horns. The latter filled the remaining hours with racket and din until the "wee sma' hours," when many happy birthday wishes were given and good-byes said.

### Birthday Surprise

A surprise reception was tendered Mrs. J. H. Harmon by several members of the Christian church and their friends at her home on North Third street Wednesday night of last week. The surprise was in commemoration of Mrs. Harmon's birthday and will not soon be forgotten by those present. Cake and cocoa were served during the evening.

### SOUTH AMERICA HAS CONFIDENCE IN U. S.

Washington, May 6.—South America has the greatest confidence in the good faith of the United States toward Mexico. Any action taken will be received without question there.

This was the statement today of Senator Fletcher, returning from South America.

"South America," he said, "thinks that the patient course of the United States toward Mexico is ample proof that it does not seek to dominate all the Americas. Many South Americans feel that we have gone as far as we can to save Mexico from itself, and that all we can do now is to withdraw or intervene. Either course would not be disapproved."

### LIVES AFTER RECEIVING 65,000 VOLTS ELECTRICITY

Bellingham, Wash., May 6.—After 65,000 volts of electricity passed through his body, Harvey Titcomb, engineer in the Puget Sound Traction, Light & Power company plant here, is still alive today. One hand was burned off. It is believed he will recover. He pulled the wrong switch.

### "Peddler's Acre."

Lambeth "old" church has numerous historic monuments, and in one of the windows is the full length figure of a peddler with his pack, staff and dog. This is supposed to represent the unknown person who presented "Peddler's acre" to the parish upon condition that his portrait and that of his beloved canine companion should be preserved in the church and that his dog should be given a grave in consecrated ground.—London Saturday Review.

Gulf of Persia.  
The Persian gulf is a dangerous and difficult place in which to navigate. It is only partially surveyed, and there is not a single light after leaving Karachi. Currents are most erratic, and great caution is always necessary when navigating these waters.

Going Too Far.  
Baldheaded Man (in the witness box)—The violent disorder was so terrible that it made my hair stand on end. Judge (severely)—Be good enough to remember that you are on oath!

### So He Would.

The keeper was feeding the pythons. Several live rabbits were tossed into the cage and were immediately and greedily seized by the reptiles. The struggling rabbits, although seemingly almost as large as the snakes, were swallowed whole one after another.

The ghastly sight prompted the scholarly looking man to exclaim, "Grew some, eh, keeper?" The keeper turned a glance of scorn upon the professor.

"Yes, and you'd 'a' grew some, too, if you'd 'a' let that live stock, I guess."
